

THE **2-IN-1** JAG FOR MUZZLELOADERS

SpinJag®

**NO OTHER JAG
LOADS & CLEANS
LIKE SPINJAG**

Patent No. 6,981,345

Unique, free-spinning tool follows rifling grooves improving both loading and cleaning for more accurate shooting

Used by the top 12 shooters in the manufacturers match at the 2005 NMLRA National Spring Shoot! Here's why:

SpinJag Loads Better

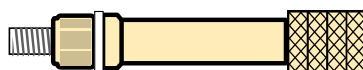

- Spins with the bullet easing the loading pressure minimizing damage to the bullet or sabot.
- Accepts many bullet shapes
- Centers bullet in bore

SpinJag Cleans Better

- Cleans rifling more efficiently, easier and quicker
- Greatly reduces patch binding
- Won't loosen from the ramrod
- Smooth in - smooth out™

Precision loading of various projectiles from round balls to polymer tip bullets. Cut-away shows how easily SpinJag accepts the new long tipped bullets.

Engineered For Smooth Operation

- Fits 10/32 threads
- Rear guide keeps tool aligned and helps center bullet in bore.
- Available for .45 cal, .50 cal., .54 cal. and other sizes. Call for complete information.

Sportsmen Talk About SpinJag

Shooting Champion Is Convinced

"I like the way the SpinJag rotates when cleaning, I find it to work really well. I wouldn't use anything else to load with."

- H. P. Gregory

Holds the record individual score in the NMLRA National Spring Shoot Manufacturers Competition which he has won 3 years in a row.

Proper Bullet Alignment Is Crucial

"I've used your product now for a couple years and I really like it. Proper alignment of the bullet in the bore is crucial to good accuracy. Helping to make the cleaning task easier will make the muzzleloading experience better for everyone. The SpinJag accomplishes both."

- Bob Elka

2005 NMLRA National Spring Shoot Manufacturers Competition, 2nd place individual score.

Warranty Disclaimer: There are no warranties which extend beyond the description on the face hereof, and other than as described on the face hereof. **Warning:** Never attempt to clean a loaded muzzleloading firearm. An accidental discharge can cause injury and/or death to the shooter and/or bystanders and damage to property. Discharging firearms in poorly ventilated areas, cleaning firearms or handling ammunition may result in exposure to lead and other substances known to cause birth defects, reproductive harm and other serious physical injuries. Have adequate ventilation at all times. Wash hands thoroughly after exposure. **Trademarks:** SpinJag, Gunn, Gunn Innovations are trademarks of Gunn Innovations, Inc.
